WE ARE NEAR

Agricultural production complex "HIGHBERRY" satisfies the demand of Ukrainian and European consumers with fresh and frozen products of absolute quality due to its own cultivation and production.

The advantageous geographical location and close proximity to the European border allow us to significantly reduce transport costs and time when transporting products to our customers in Ukraine and exporting to European countries.

GROWING

Agricultural production complex "Highberry" is constantly improving the technology of growing crops, obtaining the maximum volume of harvest from one hectare.

The only agrochemical analysis in each kilogram of the entire batch is guaranteed by the products collected in our fields. We pay special attention to the rational use and control of fertilizer and plant protection regulations.

The company "Highberry" is one of the largest producers of strawberries in Ukraine and a member of the association "Berries of Ukraine".

By carefully inspecting the products grown in our fields, we guarantee their quality and safety, which is confirmed by the (HACCP) certificate .

RELIABLE PARTNERSHIP

The "HIGHBERRY" complex is one of the largest producers of strawberries in Ukraine and a member of the "Ukrainian Berries" association.

417 hectares of our agricultural land provides high productivity on an industrial scale.

5 European countries receive "HIGHBERRY" products for export

Our own plant is equipped with modern equipment for processing and freezing products

Guarantee of freshness and minimal damage to agricultural products due to the direct proximity of the plant to the field.

Quality and safety of products, confirmed by the HACCP certificate

"HIGHBERRY" collects 1500 tons of berries and more than 300 tons of vegetables every year

All plants go through a full cycle under the careful supervision of the "HIGHBERRY" team of agronomists, from seeds and seedlings to an adult plant.

Convenient delivery of products to our customers in Ukraine, export of products to European countries due to favorable geographical location and close proximity to the European border.
